[Cathodoluminescence study of americium incorporation into ...](#)

Sun, 20 Mar 2011 23:53:00 GMT

In order to study americium incorporation into calcite, CaCO₃, under conditions of crystal growth, two samples of single crystal Am-doped calcite were synthesized and studied by cathodoluminescence (CL) spectroscopy in comparison with undoped and Eu-doped artificial calcite. Americium contents in calcite crystals were (in kBq/g): 1) 6.9; 2) 1.9(E+4).
